

BORA[®] NGX RIP GUIDE[™]

STRAIGHT CUTS MADE EASY.

The all-new BORA[®] NGX RIP Guide makes it quick and easy to accurately rip sheet goods down to size. Whether you need to make one, or multiple cuts, the durable aluminum twin rail design prevents racking and misalignment, while the oversized ergonomic handle provides ultimate control. The revolutionary tool free clamping mechanism allows for easy snap-in saw mounting - fitting both left- and right-handed circular saws, and the portable size offers easy set up eliminating the need for a large table saw. When you need guided cutting for complete accuracy the NGX RIP Guide is the perfect solution.
